Special Issue

Inferior colliculus: from past to future

Anatomical studies

L.M. Hurley, A.M. Thompson and G.D. Pollak (USA)
Serotonin in the inferior colliculus 1

R.J. Kulesza Jr., A. Viñuela, E. Saldaña and A.S. Berrebi (Spain, USA)
Unbiased stereological estimates of neuron number in subcortical auditory nuclei of the rat 12

Synaptic mechanisms

C.L. Ma, J.B. Kelly and S.H. Wu (Canada)
AMPA and NMDA receptors mediate synaptic excitation in the rat's inferior colliculus 25

J.B. Kelly and H. Zhang (Canada)
Contribution of AMPA and NMDA receptors to excitatory responses in the inferior colliculus 35

S.H. Wu, C.L. Ma, S. Sivaramakrishnan and D.L. Oliver (Canada, USA)
Synaptic modification in neurons of the central nucleus of the inferior colliculus 43

C. Trahiotis and K. Hartung (USA)
Peripheral auditory processing, the precedence effect and responses of single units in the inferior colliculus 55

Binaural processing

G.D. Pollak, R.M. Burger, T.J. Park, A. Klug and E.E. Bauer (USA)
Roles of inhibition for transforming binaural properties in the brainstem auditory system 60

D.C. Fitzpatrick, S. Kuwada and R. Batra (USA)
Transformations in processing interaural time differences between the superior olivary complex and inferior colliculus: beyond the Jeffress model 79

R. Batra and D.C. Fitzpatrick (USA)
Monaural and binaural processing in the ventral nucleus of the lateral lemniscus: a major source of inhibition to the inferior colliculus 90

L. Li and Q. Yue (PR China)
Auditory gating processes and binaural inhibition in the inferior colliculus 98

(Contents continued from back cover)

Temporal and spectral processing

G. Langner, M. Albert and T. Briede (Germany)
Temporal and spatial coding of periodicity information in the inferior colliculus of awake chinchilla (*Chinchilla laniger*) 110

C.V. Portfors and J.J. Wenstrup (USA)
Excitatory and facilitatory frequency response areas in the inferior colliculus of the mustached bat 131

P.H.-S. Jen, F.J. Wu and Q.C. Chen (USA)
The effect of two-tone stimulation on responses of two simultaneously recorded neurons in the inferior colliculus of the big brown bat, *Eptesicus fuscus* 139

D.G. Sinex, J. Henderson Sabes and H. Li (USA)
Responses of inferior colliculus neurons to harmonic and mistuned complex tones 150

D.M. Caspary, P.S. Palombi and L.F. Hughes (USA)
GABAergic inputs shape responses to amplitude modulated stimuli in the inferior colliculus 163

N. Goldstein-Daruech, M. Pedemonte, A. Inderkum and R.A. Velluti (Uruguay)
Effects of excitatory amino acid antagonists on the activity of inferior colliculus neurons during sleep and wakefulness 174

Descending pathways, sensory motor integration and plasticity

J.A. Winer, M.L. Chernock, D.T. Larue and S.W. Cheung (USA)
Descending projections to the inferior colliculus from the posterior thalamus and the auditory cortex in rat, cat, and monkey 181

P.H.-S. Jen, X. Zhou, J. Zhang, Q.C. Chen and X. Sun (USA)
Brief and short-term corticofugal modulation of acoustic signal processing in the bat midbrain 196

N. Garcia-Cairasco (Brazil)
A critical review on the participation of inferior colliculus in acoustic-motor and acoustic-limbic networks involved in the expression of acute and kindled audiogenic seizures 208

C.L. Faingold (USA)
Role of GABA abnormalities in the inferior colliculus pathophysiology – audiogenic seizures 223

J. Wang, D. Ding and R.J. Salvi (USA)
Functional reorganization in chinchilla inferior colliculus associated with chronic and acute cochlear damage 238
